```

## Basic Metabolic Panel (BMP)

The Basic Metabolic Panel (BMP) is a blood test that measures the levels of certain chemicals and electrolytes in the blood. This test provides important information about a person's overall health and helps to identify potential medical problems.

These tests can help to identify medical problems such as diabetes, kidney disease, electrolyte imbalances, and metabolic disorders. The BMP is often used as part of a routine health checkup or to monitor the progress of a medical condition.
