```

Vitamin Panel (VIT PT3)

The Vitamin Panel (VIT DT3) is a group of blood tests that measure the levels of various vitamins in the blood. The specific tests included in the panel may vary depending on the healthcare provider's preferences,

The Vitamin Panel is typically ordered when an individual has symptoms of vitamin deficiency, such as fatigue, weakness, or unexplained weight loss. The test may also be ordered to monitor the effectiveness of treatment for vitamin deficiencies or to screen individuals at high risk of developing vitamin deficiencies, such as those with malabsorption disorders or a restricted diet. The results of the Vitamin Panel can help guide appropriate treatment and management of vitamin deficiencies and promote overall health and wellness.
